Step 1: Decide the intended use and classification. Consider and decide the "intended purpose" of your anticipated product. It is not for the user to decide the intended purpose but the manufacturer. Check whether the anticipated device fulfils the definition of a medical device in Article 2 (1). If it does, decide the classification in accordance with Article 51 and the rules contained in Annex VIII.

Step 1: Decide the intended use and classification - EU MDR

Intended use = what you say on the label that the device is to be used for. Indications of use = the conditions or reasons for using the device. 'Intended Use' and the 510(k) FDA wants you to be very "to the point" about your stated intended use on your 510(k) submissions. This is more of a trend among assessors rather than a regulatory ...
