(Stephen Arroyo) Astrology Karma  
And Transformation Inner

In contrast to traditional prediction-oriented astrology, this new approach to the most ancient of all sciences is based upon the law of karma and the urge toward self-transformation. Especially emphasizing the transformative and karmic significance of Saturn, Uranus, Neptune, and Pluto, this book places all astrological techniques in a growth-oriented perspective.

astrology books, is incredibly insightful and should be read by every astrologer (though it's probably best to tackle at the intermediate level rather than as a beginner). I don't share the author's take on every topic, but he is one of my favorite astrologers to read and I always benefit from his writing.

Beyond an esoteric point of view, astrology is a tool to sort out issues about current problems and future concerns. Karma is a concept that establishes the eternity of the soul and the repetition of actions in further lives: beyond believing in reincarnation, it tells us about a spiritual continuity.
