Pre Commissioning S

Pre-commissioning cleaning is achieved through a process of flushing and, where required, chemical cleaning followed by the addition of biocides and inhibitors. Systems designed and cleaned in accordance with BSRIA's guidance are far less likely to experience operating problems and should run more efficiently/waste less energy.

BSRIA Guide - BG 29/2020: Pre-commission Cleaning of ...

Pre-commission cleaning is the process of bringing a closed heating or cooling system to a satisfactory state for commissioning and ongoing maintenance of water quality. BSRIA Poor management of closed heating and cooling systems can result in the build-up of scale and corrosion.
