Environmental Planning and Management - Town of Lincoln Environmental Planning For Site Development

Environmental planning forms the basis of all site development decisions and deals with the factors that must be considered before a site plan can be drawn up. Environmental Planning for Site Development emphasizes the man/nature interface and explains how nature limits and controls what can happen on every piece of land. The text is clearly set out and will help the reader understand exactly what information is needed for a site planning proposal.

Environmental Planning | WYG

Go-ahead for 205,500 sqm employment scheme on unallocated green belt site despite 'significant' environmental impact. Plans have been approved for a 205,500 square metre logistics scheme on an unallocated green belt site on Merseyside, despite a recognition from planners that the development would see the loss of "significant areas of established and protected woodland".
