Explorers On The Moon

Developed in part through the suggestions of Hergé's friends Bernard Heuvelmans and Jacques Van Melkebeke, Explorers on the Moon was produced following Hergé's extensive research into the possibility of human space travel – a feat that had yet to be achieved – with the cartoonist seeking for the work to be as realistic as possible.

Explorers on the Moon completes the prophetic scientific Tintin adventure that begins with Destination Moon. Hergé was breaking new ground by sending his star characters into space. Although travelling into space has become normal, even routine, today, at the beginning of the 1950s such an idea was still science-fiction.
