In Gender and Jim Crow, the author, Glenda Gilmore, examines two issues; first, the role of women in North Carolina's white supremacy battles during the post-Civil War era (1896-1920), and second, gender relations under the Jim crow system.

[Gender and Jim Crow: Women and the Politics of White](#)

Gilmore examines the interplay between gender and race in the construction of the Jim Crow era. Focusing her study on the period between the disfranchisement of African American males and women's enfranchisement, Gilmore argues that African American women played an operative role in furthering African American politic rights.

Gender and Jim Crow argues that the ideology of white supremacy embodied in the Jim Crow laws of the turn of the century profoundly reordered society and that within this environment, black women crafted an enduring tradition of political activism. According to Gilmore, a generation of educated African American women emerged in the 1890s to become, in effect, diplomats to the white community after the disfranchisement of their husbands, brothers, and fathers.

Glenda Gilmore's Gender and Jim Crow is one of the most intellectually exciting books I have read in some time; its contributions to scholarship are numerous and profound. She both makes vivid and compelling the lived experience of an important, largely elite and female, segment of the black world and provides new insights into the interactions between electoral and non-electoral politics, between politics and culture, between men's and women's lifeworlds--in short a veritable redefinition ...
