Planning for the math practices in Go Math! Grades K - 5 Mathematics The Standards for Mathematical Practice help students learn how to think and act like mathematicians. Finding moments to explicitly teach students how and when to use them supports not only the learning of today's content, but the ability to tackle new content in the future.

fully. A good lesson plan goes a long way towards preventing classroom problems. Learning to plan good lessons needs work and effort, which takes time. This is because planning depends on your knowledge and understanding of a complex set of matters including: how pupils learn mathematics; the structure of the mathemat-

Planning Guide, Go Math!, 2nd Grade

As mentioned above, this pacing guide is aligned to the 5th grade common core math standards. The guide includes the math skill with the common core standard with which the skill correlates. In addition to the time frame and sequence of skills, I also included my rationale and reasons for teaching the skill at that point in the year (or my reasons for teaching that skill before or after other math skills).
