The fact that Head Injury: A Multidisciplinary Approach was penned by an (almost) all?England team does not matter. Traumatic brain injury (TBI) is TBI is TBI the world over. Head Injury was my earliest summer read and so good that I enjoyed it in the garden outside my flat. It was a page?turner from line one, and I quickly got used to the program of ischaemia, oedema, haemorrhage, and so forth.

Penetrating head injuries (PHIs) can have diverse presentations and mechanisms; therefore, treatment methods have not been clearly outlined. Vascular injury is common and foreign body removal is often required. We present three cases to illustrate low-velocity nonmissile penetrating head injuries (NPHIs) and discuss a multidisciplinary approach.
