If you have read the Mule ESB 3.7 release notes then you already know what I'm about to say, but just to recap, here we go.... A lot of effort was put in 3.7 to upgrade our libraries stack. That effort actually began in 3.6, and although the list of upgraded libraries is not so big as it was on that release, it's somehow more significant given that we upgraded some dependencies that we ...

These release notes apply to both the Community and the Enterprise runtimes of Mule ESB 3.6.0. Where appropriate, we have applied an Enterprise marker to identify features or functionality that are available only in the Enterprise runtime. Note: Mule ESB 3.6.n uses log4j2. Ensure that you're using the latest logging configuration.
