So money was lavished on the country houses from which great estates were run. As a rule the most substantial house in a medieval village belonged to the lord of the manor. This was the manor house. In East Anglia and northern England they were generally called halls - a reminder that the great hall was their central feature.

The country houses of England have evolved over the last five hundred years. Before this time, larger houses were usually fortified, reflecting the position of their owners as feudal lords, de facto overlords of their manors. The Tudor period of stability in the country saw the building of the first of the unfortified great houses. Henry VIII's Dissolution of the Monasteries saw many former ...

Throughout the early Victorian period, American domestic architecture was dominated by the ideas and designs of Andrew Jackson Downing (1815–52). Downing, who was America's first important landscape architect, was instrumental in establishing a well-styled, efficient, yet low-priced house that offered many features that previously only mansions could provide.
