Among these peoples, the 49th parallel was nicknamed the Medicine Line because of its seemingly magical ability to prevent U.S. soldiers from crossing it. [5] In the 1844 U.S. presidential election, the Democratic Party asserted that the northern border of the Oregon Territory should be 54°40', later reflected in the 1846 slogan " Fifty-Four Forty or Fight !"

The Line - Where Medicine and Sport Collide, by Richard ...

The Medicine Line is the US/Canadian Border. Specifically, the part of the border that runs along the 49th Parallel from the Midwest to the Pacific Ocean. In the frontier days when battles between US troops and Native Americans were common, the tribes would often flee North into British/Canadian territory to rest and recuperate after a fight. Because the land North of the 49th Parallel was not American territory, US soldiers were forced to stop at that point, and allow the tribes to get away.

Urban Dictionary: Medicine Line

The long debate about rationality and conformity in both medicine and religion has been intense on many levels. Some people claim science requires certainty, validity, and reliability; others believe faith and optimism are essential for scientific advancement. Some reasons for this argument might include the enormous prosecution of scientists during the Roman inquisition.

Where is the line between faith and medicine?

Antiquity. 3300 BC - During the Stone Age, early doctors used very primitive forms of herbal medicine.; 3000 BC - Ayurveda The origins of Ayurveda have been traced back to around 4,000 BCE. c. 2600 BC - Imhotep the priest-physician who was later deified as the Egyptian god of medicine. 2500 BC - Iry Egyptian inscription speaks of Iry as [eye-doctor of the palace,] [palace physician of ...

A cut about 1cm long is made in the baby's neck and one of the big veins located. A tiny hole is made in the vein and the central line inserted. The line is tunnelled under the skin to emerge on the baby's chest. Attached to the line is a cuff of material that becomes attached to the baby's tissues just under the skin within about 7 - 10 days.

Medicine is also a subject that requires careful consideration, particularly if you have a chronic condition that requires regular prescriptions. It is easy for someone healthy to draw conclusions about medication, but when you're faced with a time of need that opinion might just fade into insignificance.
