The Midas Code is a riveting novel that left me on a book high which lasted for hours. I already have three more books by this author on my kindle which I'm excitedly looking forward to reading. This is the second book in the Tyler Locke series, and as I haven't read the first book, I can safely say that The Midas Code can be read as a stand-alone without having to read its predecessor, titled The Noah's Ark Quest.

This book was a thrill ride from start to finish. Reminded me a whole lot of The Davinci Code or National Treasure. Two people are forced by an obsessed man to hunt for the Tomb of King Midas so he can acquire the Midas touch. Our MC's are forced because their loved ones are being held hostage. Lots of puzzles to solve and bombs to defuse.
