~~SlideShare~~

The work breakdown structure (WBS) is a foundation tool for effective project management and yet its creation is often undertaken without appropriate team involvement or buy-in. The scope of a project and the totality of the work are defined in the WBS, and failing to do so early can result in rework, schedule impacts, resource misallocations, and budget increases.

~~Work Breakdown Structure — A Tool to Effectively Manage ...~~

A work breakdown structure is a popular project management tool. It's a diagram that helps break down large projects into smaller and more manageable parts which contain the project deliverables or outcomes that it will complete.
